

# The Expandable MXC MIDI C.C. Foot Controller

**MXC with CCP and QUAD SWITCH**

## The Advanced MXC MIDI EXPANDABLE CONTROLLER

A universal MIDI Controller designed to give you the flexibility of expanding and customizing your MIDI system to perfectly match your rig and performance needs. As a stand-alone unit, the MXC sends MIDI program changes on any of the 16 MIDI Channels. Connect up to two CONTINUOUS CONTROL PEDALS and two QUAD SWITCHES to the MXC for full MIDI Continuous Control of your preamp's or signal processor's features. The 4-button QUAD SWITCH can send **on/off** information via MIDI to toggle parameters such as effects loop in/out, compressor in/out, chorus rate in either **latching** or **momentary** mode. Remote access via Real-time MIDI easily sets up to vary **continuous** parameters such as volume, wah, overdrive, treble, effect mix with the CCP pedal. The CCP also has a 'soft-switch' at the end of its pedal travel, much like a classic wah pedal, which can be assigned to any MIDI parameter. The MXC is Phantom Power MIDI compatible.

### MXC Features

- Same features as MPC plus four MIDI Continuous Controller inputs for Real Time MIDI Control.
- Standard configuration is two Expression pedals and two Quad Switch banks.
- Continuous Controller Expression Pedal (ADA CCP) has a programmable "soft switch" at its full-forward position. (This is very useful in simulating the "feel" of a wah-wah pedal for example).
- Continuous Controller Switch Pedal (ADA QUAD SWITCH) has four programmable switches that function as momentary or "push-on/ push-off" switches.

## **SPECIFICATIONS:**

### **MXC MIDI EXPANDABLE CONTROLLER**

**ACCESSORIES:** Includes ADA 9V AC Adapter

**DIMENSIONS:** D = 14.4"; W = 5.5"; H = 2.3"

**WEIGHT:** 5 lbs., 7 lbs. shipping

### **CCP CONTINUOUS CONTROL PEDAL**

**ACCESSORIES:** Includes 18" cord

**DIMENSIONS:** D = 9.6"; W = 4.1"; H = 2.7"

**WEIGHT:** 3.3 lbs., 6 lbs. shipping

### **MIDI QUAD SWITCH**

**ACCESSORIES:** Includes 18" cord

**DIMENSIONS:** D = 5.3"; W = 4.8"; H = 2.4"

**WEIGHT:** 1.4 lbs., 3 lbs. shipping

### **MIDI PEDAL PACK** includes:

- 1- MXC
- 1- CCP
- 1- QUAD SWITCH
- 2- 18" Stereo Cables
- 1- 20 ft. 7-pin Phantom MIDI Cable
- 1- 9V AC Adapter
