Generics under this program are subject to change anytime. This program offers up to a 30-day supply of generic drugs on the current list of covered drugs at commonly prescribed dosages for \$4 for each prescription fill or refill. Your participation in certain prescription drug coverage plans may entitle you to pay even less than \$4 for certain of these generic drugs. If you are eligible, you will be charged the lowest applicable amount. You can get these prescription drug savings whether or not you have any prescription drug coverage through your company, under Medicare or any other plan. The list of covered generic drugs is subject to change. Not all generic prescription drugs are covered by this program. Only prescriptions filled in person are eligible for the \$4 program. This price does not apply to prescriptions filled by mail order. Prescriptions refilled may be ordered online or by telephone, but must be picked up in person at a participating Wal-Mart pharmacy. See your Wal-Mart pharmacist for further details.
