ADJUSTABLE KNEE SUPPORT

This lightweight support provides firm, comfortable compression and maintains full range of movement for weak, injured, or arthritic knees. Four patented straps allow for adjustable tension to provide a custom fit. The soft neoprene blend retains body heat for soothing warmth to help relieve pain and keep your knee flexible to avoid reinjury. Comfortable fit for all-day wear.

- A** Open patella prevents slippage while keeping kneecap in place
- B** Patented tension straps provide custom fit for controlled compression
- C** Contour design minimizes bunching behind the knee
- D** Fully trimmed edges with smooth seams prevents chafing
- E** Double-layered around knee for maximum protection

CARE: Hand wash in cool water with mild detergent. Rinse thoroughly and air dry. Do not use bleach or fabric softener.

CAUTION: This product contains natural rubber latex which may cause allergic reactions. Constructed of a neoprene blend which may cause skin irritations. If rash develops or pain persists, discontinue use and consult a physician.
