

Consumer Electronic Inventions Pay Only If Satisfied

Free Trial

**We'll Develop Electronic Inventions For You At No Obligation.
Every Client Is Unique.
Tell Us What Markets You Want Us To Target. Try Us!**

Let us conceive inventions for your company! Come to us for special applications for existing electronics technology: We have thousands of consumer electronic inventions that we will draw upon and adapt to your needs.

We can get initial results within 2-4 months.
No obligations for you!
We're easy to work with.

If you're interested, you can decide to buy rights to the patent pending invention; or pay 4% royalties. Zero royalties needed the first three years, while you launch the invention.

Steps In Invention Process:

- Today fill out the below info.
- We develop inventions.
- Patent application(s) are filed by us, at our expense.
- Inventions are then shown to you.
- Your evaluation of invention.
- You can buy or license the intellectual property rights.
