

The Black Watch kit

£14.95!

★ **Practical**—easily built by anyone in an evening's straightforward assembly.

★ **Complete**—right down to strap and batteries.

★ **Guaranteed.** A correctly-assembled watch is guaranteed for a year. It works as soon as you put the batteries in. On a built watch we guarantee an accuracy within a second a day—but building it yourself you may be able to adjust the trimmer to achieve an accuracy within a second a week.

The Black Watch by Sinclair is unique. Controlled by a quartz crystal, and powered by two hearing aid batteries, it uses bright red LEDs to show hours and minutes, and minutes and seconds. And it's styled in the cool prestige Sinclair fashion: no knobs, no buttons, no flash.

The Black Watch kit is unique, too. It's rational—Sinclair have reduced the separate components to just four—and it's simple: anybody who can use a soldering iron can assemble a Black Watch without difficulty. From opening the kit to wearing the watch is a couple of hours' work.

Touch and tell

Press here for hours and minutes... here for minutes and seconds.

Batteries easily replaced at home.

The specialist features of the Black Watch

Smooth, chunky, matt-black case, with black strap. (Black stainless-steel bracelet available as extra—see order form.)

Large, bright, red display—easily read at night. Touch-and-see case—no unprofessional buttons.

Runs on two hearing-aid batteries (supplied). Easily re-set using special button—no expensive jeweller's service.
