

## Quick & easy front panels

Laminex (or similar material) offcuts are readily available at hardware and builders' suppliers. Front panels of this laminated plastic material are attractive and inexpensive.

It may be cut to size with tin snips or hacksaw, drilled, scribed, filed, etc. As it is so easily worked and the end result is cheap and useful, try it on your next

experimental project.

An excellent idea — from **J.L. Elkhorne of Chigwell, Tasmania.**

### ERRATA

A rather obvious, but potentially dangerous error occurred in the circuit on the top left of page 60 ('Power Monitor') in the March issue. It shows the mains active input connected to the earth at the output. The mains active input should instead go to the fuse. Correct your copy now. Correction slips were inserted in the majority of copies distributed.
