Want to learn more?

Thanks for your visit. We invite you to go to our other two Visitor Centres at the Revelstoke Dam and the W.A.C. Bennett Dam.

Each centre offers a unique perspective on power generation in the province, and with a season's pass you can see all three for one low price. Ask a Tour Guide for more information on season's passes.

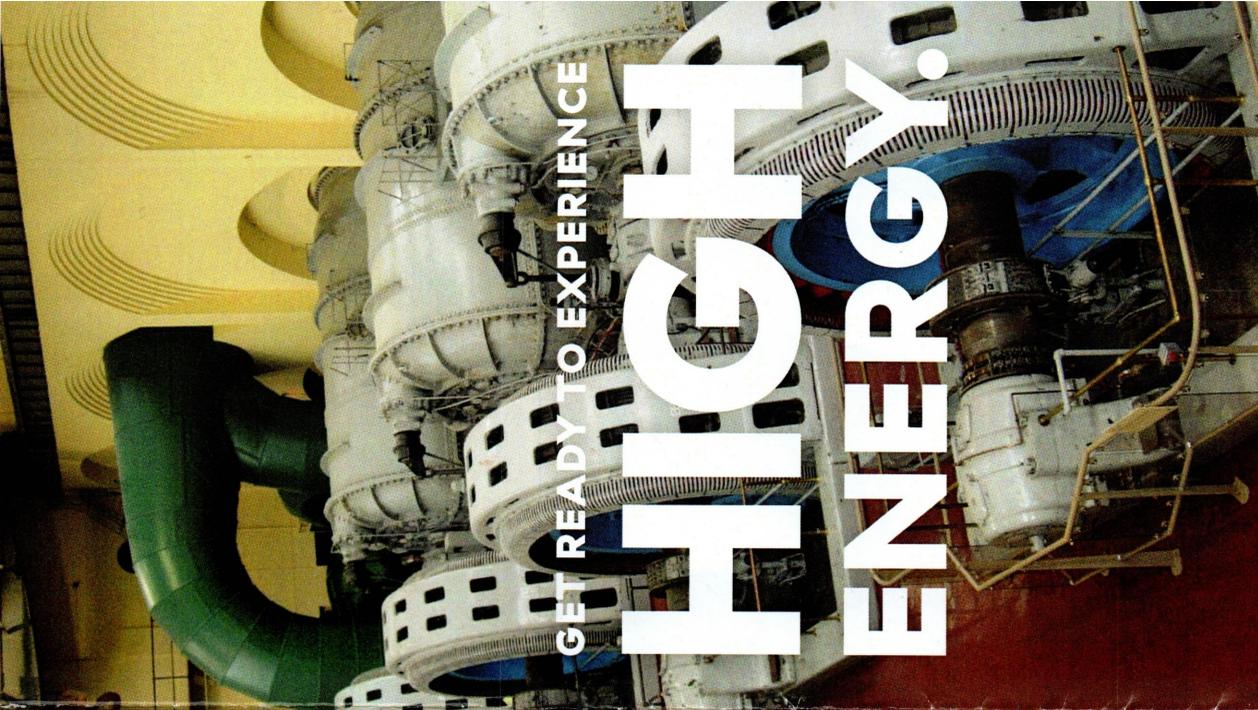

Learn more about our Visitor Centres at bchydro.com/visitorcentres.

Want to see more in the area?

Before you leave Mission, visit the following places and go to bchydro.com/recreation to learn more.

- Hayward Lake Reservoir
- Stave Lodge and Campsite
- Stave Reservoir Boat Launch

Also, stop by the Mission Visitor Centre to find out more about other exciting places to visit.

GET READY TO EXPERIENCE

HIGH ENERGY.

Welcome to the Powerhouse at Stave Falls

2017 SEASON

Welcome

Today at the Powerhouse at Stave Falls you'll have the chance to take a walk through time and learn how important the Powerhouse was for B.C. in the 1900s.

You are in a National Historic Site of Canada where you can see the inner workings of a 100 year old facility. You'll see machinery that is still in place, archival photos and artifacts, and be able to enjoy our interactive displays.

Enjoy learning about how we built the powerhouse, life at that time and how we created power here for almost 100 years.

Finding your way around

This map will help guide you through your experience so you don't miss a thing. There is plenty to see indoors and outdoors.

Feel free to take pictures at the many great photo opportunities and enjoy our complimentary wi-fi and share your experience with us @bchydro.
