

AC-DC RADIO Kit Only

FEATURES

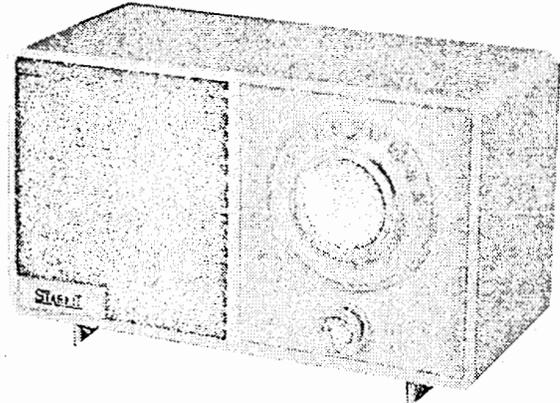

- High gain IF transformer
- 5 tube superheterodyne circuit
- 4" Permanent magnet speaker
- Pretuned IF & oscillator coils
- Miniature tube series

The Starkit Model 5A-2M is designed to provide experience in the construction of a 5 tube AC-DC Superheterodyne Receiver for use in the broadcast band. Without sacrificing performance or quality it allows the beginner to build an AC-DC receiver fully capable of providing listening enjoyment day after day, year in and year out.

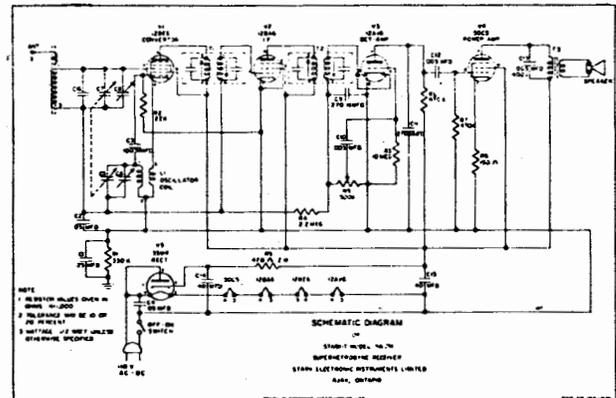

The step-by-step assembly instructions included with each kit are clear and concise, complete with large pictorial and schematic diagrams that assure you of assembling ease. All parts are neatly packaged in bags and labeled as to their contents - including tubes, wire and solder. The 5A-2M is complete with modernistic two-tone plastic cabinet.

The table model radio is fun to build and is a fine receiver for your home. Frequency coverage is from 550 to 1600 KC. The 4" permanent magnet speaker, hi-gain pre-tuned IF transformers, miniature tubes and a built in loopstick antenna, assure good reception in all locations. This receiver is extremely easy to build and once assembled you will be proud of this fine unit.

The Starkit model 5A-2M has been specially designed for students and novices embarking in the field of Electronics. The simplicity of layout and ease of access to all parts make it ideal for "your first kit". Many schools are now using this kit and should you want to use it in your school, write the factory or contact your nearest distributor for quantity prices.

STARKIT MODEL 5A-2M

Specifications

FREQUENCY RANGE
550 KC to 1600 KC

OUTPUT TRANSFORMER
Primary: 2,500 ohms
Secondary: 3.2 ohms

COILS:
Pretuned IF and oscillator coils

MADE IN CANADA

SPEAKER
4" permanent magnet

POWER SOURCE
110-115 volts AC or DC

TUBE COMPLEMENT
12BE6 Converter
12BA6 IF amplifier
12AV6 Detector, amplifier
50C5 Output amplifier
35W4 Rectifier

CHASSIS
9-3/8" x 3-1/2" x 1-1/2"
steel cadmium plated

CABINET
10-1/8" x 4-1/2" x 6"

SHIP WEIGHT
complete 3-1/2 Lbs.
