

VACUUM CLEANER HOSE ADAPTER CUTS CHASSIS CLEANING CHORES

Vacuum cleaner attachments are too large and bulky to get into a radio, TV, or hi-fi chassis satisfactorily. However, a short length of small-diameter flexible plastic tubing and a large cork or other suitable plug can be used to make an adapter that will let you get into every nook and cranny. Drill a hole

through the center of the plug just large enough to allow the tubing to fit snugly. Push the tubing into the hole, and apply a daub of cement to hold it in place. Then push the plug into the end of the vacuum cleaner hose. You can use the adapter either to blow or draw air.
