C. Using the rechargeable battery

- Charge the rechargeable battery before using it for the first time. The normal charging time should be completed at least 4-5 hours. The green charging light will go out when the battery
- The rechargeable battery is suitable when adapting the unit for portable use and when it is convenient for you to enjoy the unique functions of the unit out of doors
- · Cannot be charged by car power adapter.

. The rechargeable battery cannot be recharged either by using the 12V car-plug or when the Caution:

. The included AC adapter are for use with this unit only. Do not use them with other

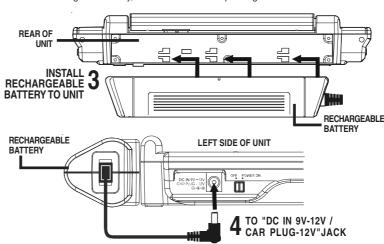

. When the unit is not going to be used for a long time, disconnect the AC Adapter from the AC outlet.

Whenever the AC adapter is plugged in to a power outlet, electricity is running through the unit, even when the power switch is turned off.

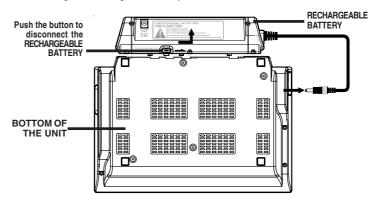

Do not short-circuit the terminals on the battery

· Recharging is complete when charging indicator goes out. Unplug the AC adapter, then unplug the rechargeable battery.

To install rechargeable battery, slide it in to the corresponding direction on the back of the unit.

■ Disconnecting the Rechargeable Battery from the unit

Condition and attention:

- When battery is low, unit will stop operating.
 During playback, if the battery is low, the BATTERY LOW indicator on the front will turn red and blink. When this occurs, you should recharge the battery.
- Do not short-circuit the terminals. Recharge the battery when you are ready to use it again.
- While using the rechargeable battery, the environmental temperature should be 5°C (41°F)
- To get the longest service life of the rechargeable battery, charge at indoor-temperature. Never dispose the battery in fire or water. Never heat up the rechargeable battery.
- Do not open the rechargeable battery, refer servicing only to qualified service personnel.

E-5

Detach the rechargeable battery when not in use. (Even if the unit is off, it still uses some power. This can completely discharge the battery and cause it to malfunction.)

CONNECTIONS

1. Slide the POWER ON/OFF switch on the left side of unit to the

- You must adjust the VOLUME to MAXIMUM when you connect this unit to other equipment. Put down the TFT cover when the playback mode is chosen.

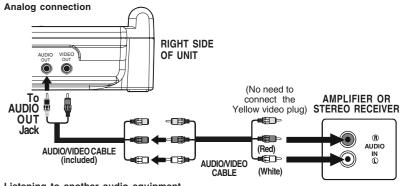

Turn on the unit.

2. Turn on the TV and follow the instructions provided with it to play the DVD. Note: Please use the correct Audio/Video cable

B. Connecting to an amplifier or stereo receiver

This unit can play Dolby Digital, but only in two channels

Listening to another audio equipment

- Turn on the Unit
- Turn on your audio equipment and follow the instructions included with it to select the AUDIO IN function

- You may experience interference if the radio tuner function is selected while the television is working. · Make sure to use the correct Audio/Video cable, connecting the plugs incorrectly may
- cause a weak signal If you have a stereo VCR, make sure you set it to stereo mode.
- · Due to copyright protection, DVD movies cannot be copied. If you copy a DVD movie onto a videotape, the resulting copy will be unclear, with poor sound quality. This is NOT caused by a defective DVD system.

CONNECTING OTHER EQUIPMENT

Using Headphones/Earphones

· Turn down the volume before connecting, and then adjust the volume level

When either headphones/earphones are connected, no sound will be output from the unit's speakers.

 Avoid listening to sound at levels which may be harmful to your ears.

· When headphones are connected to the unit. the speakers are automatically disabled.

RIGHT SIDE OF UNIT

SOUND SYSTEM

Dolby Digital

Dolby Digital is a technology developed by Dolby Laboratories. Soundtracks encoded in Dolby Digital can reproduce from one to 5.1 discrete channels of excellent quality audio. The unit automatically recognizes the Dolby Digital bitstream and provides a downmix suitable for two-channel listening. An additional Dolby Digital decoder is required

F-6

for reproduction of the discrete multi-channel soundtracks available on many DVDs DOLBY

B. Using the Car power adapter

The included car power adapter is designed for use with vehicles that have a 12V, negative ground electrical system.

Cautions:

using this unit in your vehicle.

. Use only the included 12V car power adapter. Use of any other 12V car power adapters could damage the unit. The 12V car power adapter included is for use with this unit only. Do not use it with any other

In the interest of traffic safety, drivers should not operate the unit or view videos while driving. When the inside of the cigarette lighter socket is dirty with ashes or dust, the plug section may become hot due to poor contact. Be sure to clean the cigarette lighter socket before use

After use, disconnect the car power adapter from both the unit and cigarette lighter socket. If the unit is not properly attached to a vehicle, it may become airborne in the event of an accident and cause damage, injury, or death. · Check your local traffic laws for rules governing the use of video devices in vehicles before

E-4

PLAYING A DISC

This owner's manual explains the basic instructions for operating this unit. Some DVDs are produced in a manner that allows specific or limited operation during playback. Therefore, this unit may not respond to all operating commands. THIS IS NOT A DEFECT. Please refer to the instructions accompanying the specific DVD in question for more information about

the options available on that DVD.

" anay appear on the screen during operation. The " symbol means that the desired operation is not permitted by the unit or disc.

Playing a Disc

- 1. Slide the POWER ON/OFF switch on the front side of the unit to the ON position. See CUSTOMIZING THE FUNCTION SETTINGS before proceeding to step 2.
- Open the disc door. 3. Hold the disc by its sides and carefully place it onto the spindle with the label side facing up, pushing gently until you hear a
- 4. Close the disc door
- It takes a short while for your unit to load the disc. After loading, the unit will automatically either bring you to the main menu of the DVD, or start playing the DVD

Pausing playback (still mode)

Press the II PAUSE button. To resume normal playback, press the PLAY button Each time you press the II PAUSE button, the picture advances one frame.

Stopping playback

- . Press the STOP button at the location where you want to interrupt playback. To resume playback at the position where the disc was stopped, press the ▶ PLAY button.
- If you press the STOP button twice, the unit's memory will be cleared and pressing the ▶ PLAY button will reset the disc to the beginning.

Skipping to a different track

- Press the I44 PREV button to skip to the start of the current track.
- Press the ►► NEXT button to skip to the next track.
- For audio CDs, use the number buttons on the remote control to jump immediately to the

Fast Forward/Fast Reverse

- 1. Press the **SEARCH** → or **≪SEARCH** button when a disc • The disc begins a fast scan at two times normal (x2)
- Four speeds are available. Each time the SEARCH
- button is pressed, the speed of the fast scan changes. 2. Press the ► PLAY button when you reach the desired point to resume playback at normal speed.

▶ x 2 → ▶ x 4 → ▶ x 8 → ▶ x 20

Sequence of angle shots

.... 1/3 Eng

SKIP (Forward / Reverse)

While you are playing a disc, press the ►H NEXT button to move to the beginning of the next chapter or track. Press the I≺ PREV button to move to the previous chapter or track and playback will automatically begin.

Audio selection

On some discs, the sound is recorded in two or more formats. Follow the directions below to select the type of playback 1. While a disc is playing, press the **AUDIO** button to show the

current audio format number.

2. Press the AUDIO button repeatedly to select the desired audio format.

If only one audio format is recorded, the number does not change

About two seconds after a selection is made, playback continues in the new audio format.

- 1. While a DVD is playing, press the SUBTITLE / RETURN button to display the current language setting, as shown in the diagram.
- 2. Press the SUBTITLE / RETURN button repeatedly to select the desired subtitle language.

· If only one language is recorded, the language does not change.

- · About two seconds after selecting the subtitle language, playback continues with the new
- The number of languages recorded differs depending on the disc. · If no button is pressed within a few seconds, playback continues without changing the
- · This function can only be used for discs on which subtitles have been recorded in multiple languages.
- On some DVDs, subtitles are activated from the main menu of the DVD. Press the MENU button to activate the main menu

Angle selection

Some DVDs contain scenes which have been shot from a number of different angles. For these discs, the same scene can be viewed from each of these different angles 1. While you are playing a DVD with different angles recorded, press the ANGLE button to

F-7

view the number of current angles available 2. Press the **ANGLE** button repeatedly to change the **2** 1/2

scene to the next recorded angle. •After approx. two seconds, playback will continue from the new angle you selected.
•If no button is pressed within 10 seconds, playback

continues without changing the current angle.

This function can only be used for discs on which scenes shot from multiple angles have been

• If only one angle is recorded, " 🖺 1/1 " is displayed.

DISPLAY function

Using DISPLAY, you can check the current settings of the following items: ANGLE, AUDIO and

. While the disc is playing, press the DISPLAY button to display the screen as shown in diagram.

Elapsed time: Elapsed time from the beginning of the chapter which is currently playing.

Remaining time: Remaining time of the title which is currently playing.

SPECIAL FUNCTIONS

Locating a specific title

- If a DVD contains title numbers, you can locate a specific title by directly selecting its title number In stop mode, press the GOTO button
- 2. Press or ▶ button to highlight a specific field and press the corresponding number outton(s) for the title you want.
- 3. Press the **ENTER** button to confirm. The unit will start playback about 3 seconds later.

Locating a specific title / chapter / track

If you know the title/chapter/track number for the title/chapter/track that you want to play, you can locate it by directly selecting that number.

- 1. Press the GOTO button to search for your desired title/chapter/
- the corresponding number button(s) for the chapter you want. 3. Press the **ENTER** button to confirm. The unit will start playback about 3 seconds later.

Locating a specific time

You can move to a specific location by entering its corresponding time (hours, minutes, seconds) Press the GOTO button

- 3. Press the corresponding number buttons for the setting point

 Time --:--:

4. Press the **ENTER** button to confirm. The unit will start playback about 3 seconds later.

- Some scenes may not be located as precisely as you specified.
- This method for accessing specific locations is available only within the current title of the

CD/DVD PROGRAMMABLE MEMORY

Programmable memory

The two types of programmed playback provided by this Unit are title/chapter programmed playback and track programmed playback

DVD Title / Chapter programmed playback

on the screen

You can play a single track or the whole DVD repeatedly.

While the disc is playing, press the REPEAT DISC button until the "RepeatSingle" indicator displays on the screen. The current track is played repeatedly.

Repeating a whole CD

2. While the CD is playing, press the REPEAT DISC button until the "Repeat All" indicator displays on the screen. The whole disc is played repeatedly

Resuming normal CD playback

3. Press the REPEAT DISC button until the "off" indicator displays on the screen.

Repeating a specific section

- While the disc is playing, press the **REPEAT A-B** button at the beginning of the section
- Press the **REPEAT A-B** button again at the end of the section ((Rep A-B) is displayed).

The unit will immediately begin replaying your selection. To resume normal playback

- 4. While the disc is playing, press the REPEAT A-B button until the "or " indicator displays on
- . A-B repeat can only be used within the same title. If the start and end of the section to be
- repeated are in different titles, A-B repeat is cancelled. • The A-B repeat function does not operate in scenes where different camera angles are

PLAYING MP3 AND PICTURE FILES

This unit can play MP3 and Picture files recorded on CD-R and CD-RW discs.

Playing an MP3/Picture file disc

- Insert the MP3/Picture file disc.
- Close the disc door
- contents of the disc on the screen, while also beginning to play the first MP3 file or Picture files. Each file will be played one after anothe
- select the file(s) that you want to play, then press the ENTER button to confirm the selected file.

(Boot) The unit will load the disc and automatically display the ,∄ Single © Car ■ Flow. Map Modern Press the ▲, ▼, ◀ or ▶ CURSOR button to view and

- You can press the II PAUSE button to interrupt playback, and press the ► PLAY button to resume nlavhack
- You also can use the GOTO function or use the numbered buttons to enter a photo number and quickly select any image.
- Press the **ANGLE** button on the remote control to rotate the picture orientation by 90°.

- The ability of this unit to read MP3 discs is dependent on the following:
- The Bit Rate must be within 64 256 kbps. The total number of files on the disc should not exceed 254.
- The maximum number of directories should not exceed 32
- The maximum depth level of directories should not exceed 4
- File names should be named using 7 or fewer letters and/or numbers, and must incorporate the "MP3" file extension. EXAMPLE: *******.MP3 where each * is a letter or number.
- Use only letters and / or numbers in file names. If you use special characters, the file and/ or folder names may not be displayed correctly on the on-screen display.
- When recording on CD-R discs, use 74-minute (650MB) discs.
- The CD-R or CD-RW discs should be "finalized" on the computer using "single session format" with recording speed less than "8x"
- See your CD/MP3 creation software for more information.
